THE WATER WAS ROUGH.

Adventure of a New Haven Party at Lake Saltonstall.

Mr. Frederick L. Neebe with a party of four young ladies, two sisters, a young lady from this city and a young lady from Meriden, visited Lake Saltonstall Saturday afternoon. While there the party boarded a rowboat and set out to visit the grove situated at the head of the lake, about three miles distant. A fresh southerly breeze was blowing and great headway was made on their journey up the lake, but when the return trip was attempted it soon became apparent that the sail was to be a perilous one. The wind had increased in force and a high sea was running, and when about a half mile from the grove Mr. Neebe had all he could do to keep the boat headed to the wind. Once or twice the craft got in the trough of the sea and came near capsizing. Captain A. J. Bassett, of the steam launch which daily sails over the course saw the peril of the party, and after untiring efforts at last managed to get a line from them and towed them safely back. His great kindness was much appreciated. Before the boat was at last moored at the boathouse, however, Mr. Neebe fell overboard. Should he ever again attempt to visit upper Saltonstall he says he is certain that he will be a passenger on one of the steamers, as he has learned a lesson by his experience.

A False Diagnosis.

La grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the forehead, eyes and ears, with soreness in the throat and stoppage of the nasal passages, and in fact, are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief. au21 3t editw
